1. Attached are copies of the LF-023 Source Control Proposed Remedial Action Plan (PRAP) (Draft) (Mar 92) for Plattsburgh Air Force Base (AFB), New York. This draft primary document is provided for regulatory review and comment, as described in Part XI, Consultation of the 12 Sep 91 Federal Facilities Agreement (FFA).

2. The PRAP summarizes the results and conclusions of the remedial alternatives evaluated in the LF-023 Source Control Feasibility Study. Following regulatory draft review the document will be revised as a draft final and provided along with the final feasibility study for our Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) community involvement requirements.

3. Request your office, if possible, review and comment on the draft LF-023 Source Control PRAP within 30 days to sustain the fast track necessary to progress toward decision documentation and design this fiscal year for this site. Your support of this goal is greatly appreciated. Any questions can be directed to Ms. Rachel Becker at (518) 565-6670.
